

Dear Hiring Manager,

I am Ihsan Faridi, a Senior Backend Developer with over 5 years of experience, and I am excited to apply for the Senior Backend Developer position at your company. I am drawn to this opportunity because of your commitment to innovation and excellence in technology, and I am eager to contribute my skills in **Node.js**, **Python**, and **AI technologies** to your team.

Throughout my career, I have successfully architected and developed scalable backend services using **Node.js** and **Python**, integrating modern technologies such as **AI** to enhance user experiences. One of my key achievements includes building robust **RESTful APIs** with **FastAPI** for efficient data handling, which aligns with your needs for a developer who can create performance-driven applications. Additionally, my experience in collaborating with cross-functional teams to deliver high-quality products has honed my ability to work effectively in an agile environment, ensuring that project goals are met on time.

I am particularly excited about the prospect of joining your company because of your focus on leveraging cutting-edge technologies to solve complex problems. I believe my expertise in **AI**, particularly with tools like **ChatGPT**, can contribute to enhancing functionality and user engagement within your products. My passion for mentoring junior developers and conducting workshops on best practices further demonstrates my commitment to fostering a culture of continuous learning and improvement.

Thank you for considering my application. I am looking forward to the possibility of discussing how my background, skills, and enthusiasms align with the vision of your team. I am eager to bring my experience in **backend development** and **AI integration** to your company and contribute to your projects. Please feel free to contact me at your earliest convenience to schedule a discussion.

Sincerely,

Ihsan Faridi

Senior Backend Developer
